

Total Hip MAKOplasty Surgery Requirements – Dr. Michael Durkin
AMITA Health Center for Advanced Joint Replacement La Grange
5101 S. Willow Springs Rd
LaGrange, IL 60525
708-245-9000

CT SCAN & Pre-op testing

You will receive a call from the pre-surgical nurses at LaGrange Hospital to schedule your pre-surgical testing and CT scan 3-4 weeks before surgery. Testing must be **within 30 days of your surgery**. As soon your testing and CT scan is scheduled, call your primary care doctor / specialist to schedule a surgical clearance appointment a few days after your scheduled testing. **Call Colleen 630-455-2621 once your appointment with your CT scan and clearance appointments are scheduled.**

Nicotine user; you will be required to stop smoking at least **1 month prior to surgery**. You will be given an order to test your nicotine and metabolite levels **2 weeks before** surgery. If you test positive for nicotine your surgery will be rescheduled.

Clearance for surgery

It is **your responsibility** to contact your primary care physician / specialist for an appointment **within 30 days to clear you for surgery**. Colleen will send your physician a letter requesting clearance along with the pre-surgical testing results for them to review. Your physician will need to fax your medical clearance to Colleen at **630-455-7124**.

Pre-Op physical therapy

You will **receive a call** from our physical therapy department to schedule your pre-op PT appointment. This appointment will include a subjective and objective assessment, fitting for any durable medical equipment needed, braces, slings etc and teaching of proper use, gait training and post-operative exercises, home modifications.
Medicare patients are to bring their OrthoSync packet to pre-op PT.

Flomax Prescription

MALE PATIENTS ONLY will have a 7 day prescription of Flomax sent to your pharmacy.
